## Highway Work To Start Soon

Minister of Highways Gordon Reafer reaffirmed his statements made at a meeting here some weeks ago when he announced in the legislature that a \$10,000,000 new highway will be constructed within the next two years between Bowden and Crossfield.

The 29-mile four-lane highway divided by a 20-ft. median will be the first ever constructed in the Canadian west and will replace the existing highway between the two points. The stretch was selected because it was probably the worst for turns and curves between Edmonton and Calgary.

The new road between Crossfield and Bowden, which by-passes Castries, Didsbury and Olds, will be started immediately and if it proves satisfactory, it will probably be a pattern for all main highways in the province.

Special crossings are to be provided for east-west traffic.

At a meeting here some weeks ago, the minister stated that the highway would pass approximately three miles east of here but that the present route would be properly connected with the new highway and would be kept in a high state of repair.

This last week I went to see the picture "Titanic" and found it to be one of the better pictures that Hollywood produces. The picture, as a documentary, was good, although the ship's captain and crew never really emerged as "real." The real emotional build-up concerned that tragic failure of an aristocratic family man, "the pride and stubborn self-will" was leading his family to marital and spiritual shipwreck with the same speed and disregard of warning signs as the voyage of the ill-fated ship. Eventually he lost his life, but saved his soul.

The picture has a message of social significance, as a parable of human life. How often has humanity been shipwrecked when catastrophes might have been averted. The husband and wife in the play didn't know at what point their marriage had gone wrong, but it took the catastrophe to straighten things out. It is a fact that many at the present time feel that we are heading toward disaster, although they are not just certain where the mistake was made.

One of the "icebergs" that is a potential threat to the world's safety is a result of the fact that in certain parts of the world there is a surplus of food, while in other areas there is hunger and starvation.

The Lenten appeal of the United Church concerns "Food for the World's Hungry." At Easter time a special offering will be received and the entire proceeds of this offering will be used to purchase food, particularly for India and Korea. Special literature and offering envelopes will be provided to give further information to church people.

This offering is a missionary offering, and is channelled through the missionary and maintenance fund. Ordinarily this fund is used to finance the various branches of the church's work both at home and abroad. The Lenten offering will be recognized as a contribution to the M. and M. work, but the entire amount, without any deduction whatsoever for overhead, will go for food. Every dollar you contribute will mean a dollar's worth of life for some one else. Canadians are in danger through full stomachs and empty souls. Here is an opportunity for self-denial in the Master's name for the sake of others.

"Who gives himself with his aims feeds three —  
Himself, his hungering neighbor,  
and Me."

Tree Planters: I am receiving inquiries these days from the rate-payers about the availability of the tree planter to plant their trees in the spring. Some of you know that we do have a good tree planter and to those of you who were not aware of this fact I would like to say that we had a tree planter built and put to use last spring.

My records show that we planted 17,450 trees and cuttings last year.

Reports received from some farms where these trees were planted would indicate that the very large percentage of all trees planted grew. It seems quite apparent that the size of the trees planted and the size of a tree planter is much higher than if planted by hand.

Last year we planted the first trees on May 12 and the last ones on May 29.

During that time the planter will probably be kept very busy. If you have trees ordered get your name on our list for the planter. It was built for your convenience and use and is available free of charge.
